Handbook of Research Methods - UNTAG

Applied research “aims at finding a solution for an immediate problem facing a society, or an industrial/business organisation, whereas fundamental research is mainly concerned with generalisations and with the formulation of a theory”. Applied research is considered to be non-systematic inquiry and it is usually launched by a company, agency or an individual in order to address a specific ...

Applied Research - Research-Methodology

Original research, also called primary research, is research that is not exclusively based on a summary, review, or synthesis of earlier publications on the subject of research. This material is of a primary-source character. The purpose of the original research is to produce new knowledge, rather than to present the existing knowledge in a new form (e.g., summarized or classified).
