Articulating Design Decisions - SlideShare

Communicating about designs was more important than the designs themselves –Tom Greever, Articulating Design Decisions. To Convey Design Decisions to a Non-Designer. The industry is full of people with markedly different job titles and levels of design understanding: researchers, marketers, product managers, and developers.

Effective Design Communication Skills and Strategies | Toptal

Even though this is always a risk, approaching our meetings with this fear actually undermines the purpose of articulating design decisions. If we aren’t able to convince stakeholders that our solution is better, either we aren’t doing a good job of communicating to them or we don’t understand their needs enough to create a design that solves the problem.

Articulating Design Decisions :: UXmatters

Talking to people about your designs might seem like a basic skill, but it can be difficult to do efficiently and well. And, in many cases, how you communicate about your work with stakeholders, clients, and other non-designers is more critical than the designs themselves—simply because the most articulate person usually wins.
