### The Missing Truth (Climate Change Doco)

Climate change is the undercurrent that drives and shapes our lives in countless ways. Journalist Judith D. Schwartz sees the term as shorthand. "It's almost as if people think climate is this phenomenon, determined solely by CO2, as if we could turn a dial up or down," she tells me over the phone. "We are missing so much."

### Warming Up to the Truth: The Real Story About Climate Change

Over the course of the Earth's 4.5-billion-year history, the climate has changed a lot. This is true. But the rapid warming we're seeing now can't be explained by natural cycles of warming and cooling. The kind of changes that would normally happen over hundreds of thousands of years are happening in decades.
