(PDF) Gillian Brown and George Yule, Discourse Analysis

Discourse analysis, also called discourse studies, was developed during the 1970s as an academic field. Discourse analysis is a broad term for the study of the ways in which language is used between people, both in written texts and spoken contexts.

Discourse Analysis: Observing the Human Use of Language

Discourse analysis is a term that has come to have different interpretations for scholars working in different disciplines. For a sociolinguist, it is concerned mainly with the structure of social interaction manifested in conversation; for a psycholinguist, it is primarily concerned with the nature of comprehension of short written texts; for the computational linguist, it is concerned with ...

Discourse Analysis by Gillian Brown

Discourse analysis (DA), or discourse studies, is an approach to the analysis of written, vocal, or sign language use, or any significant semiotic event. The objects of discourse analysis (discourse, writing, conversation, communicative event) are variously defined in terms of coherent sequences of sentences, propositions, speech, or turns-at-talk.
