Chapter 2: Financial Math 38 Section 2.2 Simple and Compound Interest Note: Spreadsheets are emphasized in this chapter, but the formulas are also presented so you can understand what the spreadsheet is doing. Be sure to check with your instructor for which method to use. Working with money is a very important skill for everyday life.

Chapter 2: Financial Math

Basic Ideas of Financial Mathematics 1 Percentage The word "percent" simply means "out of 100". Thus if you have 55% in a test, it means you obtained 55 marks out of a possible 100. This means you obtained $\frac{55}{100}$ of the marks available. So if the test is actually marked out of 40, then you have $\frac{55}{100} \times 40 = 22$ marks:
