Intake and output calculation NCLEX review for nurses. This quick review will highlight how to calculate intake and output because these type of questions may be on your NCLEX exam or (definitely) on a nursing lecture exam. It seems like calculating I and O's is self-explanatory, right?! Well, it can be tricky, especially calculating intake because many students get confused on what to ...

Intake and Output Calculation NCLEX Review

Gerontological nursing is the specialty of nursing pertaining to older adults. Gerontological nurses work in collaboration with older adults, their families, and communities to support healthy aging, maximum functioning, and quality of life. The term gerontological nursing, which replaced the term geriatric nursing in the 1970s, is seen as being more consistent with the specialty's broader ...

Utility. Hospital gowns worn by patients are designed so that hospital staff can easily access the part of the patient's body being treated. The hospital gown is made of fabric that can withstand repeated laundering in hot water, usually cotton, and is fastened at the back with twill tape ties. Disposable hospital gowns may be made of paper or thin plastic, with paper or plastic ties.

In nursing and other applied health research, generalizations are critical to the interest of applying the findings to people, situations, and times other than those in a study. Without generalization, there would be no evidence-based practice: research evidence can be used only if it has some relevance to settings and people outside of the ...
