Package 'robustbase'
The package in action. Let's look at the hawks dataset we used for the ggplot2 posts - you might also remember I talked about this in my most recent post about not using the iris dataset.. With the data.table library, we could use fread() to read in the csv, which will be quick and give us a data.table object. Lots of people who aren't normally data.table users will still use fread() and ...
