VR 5l Auto Bin. by IMA355 » Sun Jul 19, 2015 6:04 am . Hi guys Waiting to get hold of antus about an NVRAM chip for the car. In the meantime here is the current bin from the car. I bought a custom tune a while ago. Seemed to work pretty well, but now the car is a T56 manual instead of a auto and seems to be running rich.

Holden Commodore VR cars for sale in Australia - carsales ...

As for the 2.5L auto, your stock gears should be 3.73. Going to 4.56 will put your rpms right back to where they were stock at 65mph. 4.88 will add about 200 rpm at 65mph, not too bad at all. If it were my, 4.88 all the way. Regearing is \$\$ and time intensive, and 3.73 to 4.56 isn't much of a change.
